

CUTTING EDGE TECHNOLOGY

We are committed to bringing you cutting edge, open source software for cost-effective library automation.

At BiblioTech, we believe that libraries are the foundation of learning and the future of society. That is why we are motivated to keep libraries relevant and in step with technological advances in the 21st century.

By partnering with us, you will be joining a world-wide network of thousands of libraries that are using Koha Integrated Library System

Visit our website www.bibliotechzw.com to learn more about how automating your library will benefit you and your patrons.

SMART
TECHNOLOGY
FOR
SMART
LIBRARIANS

Library Automation

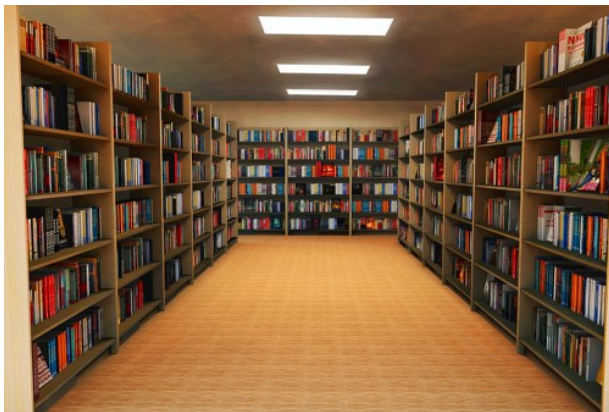

Is not an option...

OPEN-SOURCE INTEGRATED LIBRARY SYSTEM

We all know that librarians work hard. But do you work smart? Our mission is to help you increase your productivity and efficiency by automating the day to day processes that you would otherwise have done manually using Koha ILS.

No library is too big or too small, that's why our services are not just limited to university and public libraries, but extends to schools, colleges, company and personal libraries as well.

BiblioTech Libraries has over 7 years of experience installing, maintaining and supporting Koha systems. And decades more working with libraries.

World Class Software

For world class libraries...

Improve Your Customer Service

Patrons will love the Online Public Access Catalogue which makes searching, holds and account management so much easier.

Work Smarter. Not Harder

Low man-power? Tight budget? No problem. Koha helps you to increase your productivity exponentially

Save Money. Save Time.

Koha's circulation, cataloguing and notices modules automate mundane, everyday tasks, giving you more time to serve your patrons and invest in developing your library. Your patrons can even pay fees and library charges online, without leaving their homes.

Are You Keeping Up?
Not appearances, but with the 21st Century.

Get Koha. It ticks all the right boxes.
